

What you should know about FLEX-Drain[®] engineered drain pipe

Exceeds the following ASTM standards

- Brittleness - outperforms leading brand of 4" corrugated pipe
- Stiffness - stronger than leading brand of 4" corrugated pipe
- Joint Integrity - FLEX-Drain[®] fittings outperform leading brand

Engineered to outperform the competition

- Installs faster than standard corrugated pipe
- Requires 1/5th the storage and transport space
- FLEX-Drain[®] perforated pipe has a 14% better water flow rate than leading brand of 4" perforated corrugated pipe.

Advanced design for superior performance

- FLEX-Drain[®] outperforms leading brand of 4" corrugated pipe in freeze and thaw conditions.
- FLEX-Drain[®] "peak and valley" design has superior load bearing versus leading brand of 4" corrugated pipe.
